FRONTEND ENGINEER | UIUX LEAD

WORK EXPERIENCE

FRONTEND ENGINEER & UIUX LEAD

HUNGRY MARKETPLACE   Washington D.C. Metro Area **July 2017 ~ Present**

Hungry Marketplace is a startup that connects independent chefs to corporations that need catering.

- Build responsive, cross browser compatible applications from the ground up in JavaScript (React/React Native), Typescript, HTML & CSS.
- Create product prototypes using Sketch/Photoshop/InVision and conduct UI/UX research.
- Developed the frontend for Hungry's chef & catering menu selection platform & conducted user research to improve its checkout flow.
- Designed and built a website for Major League Baseball fans to order ballpark food to their homes during the Covid pandemic. It has generated over $250,000 during the 2020 baseball season.
- Designed and built a React Native mobile app for users to find and view menus for Hungry catering popups near them.
- Built the frontend of the sales portal that is used by the internal sales team to manage all upcoming orders.
- Use Google Analytics to monitor website's performance and make adjustments accordingly.

FRONTEND ENGINEER

SYMPLICITY CORPORATION   Washington D.C. Metro Area **July 2016 ~ July 2017**

Symplicity offers a comprehensive suite of products for admissions, career services, advising, student conduct, campus life, housing & residence life, and alumni engagement offices.

- Maintained and updated software's user interface using HTML, CSS, JavaScript and jQuery, and tested for cross browser compatibility.
- Updated code to be ARIA/WCAG 2.0 compliant and used screen readers to test for web accessibility.
- Created new features from mocks provided by the UI/UX team including a dashboard with multiple charts using Javascript and Chart.js.

ART DIRECTOR

A2L CONSULTING   Washington D.C. Metro Area **Apr. 2015 ~ Dec. 2015**

A2L Consulting provides litigation consulting services and trial graphics.

- Advised lawyers on how to communicate their message through visual design to win in trial.
- Created persuasive graphics using Photoshop and PowerPoint to present to the judge and jury in court.
- Designed marketing, sales and promotional material using Photoshop & Illustrator.

EDUCATION

UNIVERSITY OF CALIFORNIA, IRVINE   Irvine, CA **2013**
B.A International Studies
